Statement of CPNI Procedures and Compliance

Mission Communications, LLC ("Mission") operates as an international reseller of operator assisted services, and as such provides operator assisted call completion services to transient users of hospitality telephones for calls originating in foreign locations and terminating to the United States. Such services consist of casual traffic provided outside of any subscribed service relationship and the company does not obtain any CPNI. The only information the company has is the raw call record containing the call-from number, the call-to number, the bill-to number, and the duration of the call. The company does not have any information about the individual calling or called party. Calls are billed by the local exchange carrier or via credit card.

Mission does not have any CPNI and therefore cannot use or permit access to CPNI. Moreover, Mission does not market its operator services to end users in any fashion. Its marketing efforts are directed towards aggregators and such efforts do not include the use of CPNI.

Should Mission expand its business in the future to include the provision of services that involve CPNI, it will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

Requests for raw call records by law enforcement agencies are only granted if a subpoena is provided.
